UDAF-Pesticide@utah.gov

During the 2007 Legislative Session, House Bill 132 was passed and became law. This new law requires the Registration and Licensing of Commercial Pesticide Businesses with the Utah Department of Agriculture and Food (UDAF).

The purpose of the law is to better track Commercial Pesticide Companies. Previously only individual applicators were required to be licensed in Utah. With the new law a license will now be required for all Commercial Pesticide Businesses.

A Commercial Pesticide Business shall register with the Department by completing all of the following:

- € Submitting an application
- € Paying the registration fee

The Business License fee is triennial (once every three years) and will vary in the amount due dependant on the number of applicators:

Companies with 1-4 Commercial pesticide applicators	(\$75)
Companies with 5-9 Commercial pesticide applicators	(\$150)
Companies with 10 or more Commercial pesticide applicators	(\$300)

These fees are only required to be paid once every three years, with the Pesticide Business License expiring on December 31 at the end of the third year. All fees collected by the Utah Department of Agriculture and Food will be used in the pesticide program.

Each location that employs Commercial Pesticide Applicators is required to pay a Business License fee for that location.

Those Commercial Pesticide Applicators who are not affiliated with a Commercial Pesticide Business are required to obtain and pay the fees for a Commercial Pesticide Business License AND a Commercial Pesticide Applicator License.

Please fill out your company information and include the appropriate fees. Return the completed form to UDAF.

If you have any questions regarding this new law please contact us at 801-538-7185.

Scott Oldham, Pesticide Program Manager
