The Laboratory performs a variety of tests for other government agencies. The charges for these tests are determined according to the number of tests, and based on cost to the Laboratory and therefore may be different than the fee schedule. Because of changing needs, the Laboratory may receive requests for tests that are impossible to anticipate and list fully in a standard fee schedule. Charges for these tests are authorized and are to be based on costs. Charges for other tests performed for other government agencies are authorized and are to be based on cost recovery.
