

RESPIRATOR FIT TEST LOCATIONS IN UTAH

Updated 10/2/18

A medical evaluation is required to determine a person's ability to use a respirator before they are fit tested. Employers must provide respirator and fit testing, training, and medical evaluation that conforms to OSHA standards for any handler required to wear any respirator by the labeling. Recordkeeping of completion of fit test, training, and medical evaluation must be kept for 2 years. Refer to EPA's WPS—How to Comply Manual for more information.
