LUANN ADAMS
Commissioner

SCOTT ERICSON
Deputy Commissioner

March 15, 2018

Dear Specialty Crop Applicant,

The Utah Department of Agriculture and food does not allow Specialty Crop Block Grant applicants to claim indirect costs as part of their grant request.

The U.S. Department of Agriculture awards each state a block of funds to administer. USDA allows states to keep indirect costs as a way to offset the costs of administering the program at the state level.

Please use this letter as verification to your agency or organization's finance office that UDAF does not allow applicants for Specialty Crop grants to request indirect costs.

Please contact me with any questions of concerns. My contact information appears below my signature.

Respectfully,

Jack Wilbur
