

HOW AN OUT-OF-STATE PESTICIDE APPLICATOR CAN BECOME LICENSED IN UTAH

The Utah Department of Agriculture and Food (UDAF) currently have a reciprocal certification agreement with five states: Idaho, Colorado, Montana, Washington and Wyoming, as well as United States Department of Defense (DOD) and the Bureau of Land Management (BLM).

This agreement allows individuals holding a Commercial pesticide license from the state in which they reside to be granted a Utah Commercial Pesticide Applicators License in corresponding categories. The expiration date will remain the same as the currently held home state, DOD, or BLM license. To apply for a Utah license, individuals must comply with the following:

1. Complete a Utah Pesticide application
2. Submit the appropriate fee
3. Supply a copy of their current home state, DOD, or BLM pesticide license
4. Supply a LEGIBLE copy of government issued photo identification by fax, or email.
5. Request a Letter of Good Standing from the home state, DOD, or BLM licensing department to be faxed to 801-538-7189 or mailed directly to UDAF at:

UTAH DEPARTMENT OF AGRICULTURE AND FOOD
PESTICIDE PROGRAM
PO BOX 146500
SALT LAKE CITY, UT 84114-6500

The appropriate licensing fee is twenty dollars for processing, plus thirty five dollars for each year the current home license is valid, up to two years. If the applicant has a home license, DOD, or BLM license that is valid for 3 years, the licensing fee will be \$65.00.

UDAF reserves the right to require examination of individuals for just cause or if comparable license categories do not exist between the two states. Call 801-538-7185 for further information or questions. All correspondence must be mailed to the above address.
