APPLICATION FOR CERTIFICATE OF REGISTRATION (COR)

Utah Department of Agriculture and Food Fish Health Program

INSTRUCTIONS

Complete all sections and attach a site description and drawing and/or photos.

ADDITIONAL INFORMATION

- All applicants:**
 - UDAF will contact you and schedule a consulting visit. There is presently no charge for this visit. UDAF will conduct water quality tests, answer questions, and inspect screens (aquaculture and fee fishing facilities only). Screens should be installed prior to this visit; otherwise photographs need to be sent to UDAF of installed screens.
 - If deficiencies exist with the application, UDAF will contact you. When deficiencies are remedied, the COR is normally issued within 10 working days. If a COR is not issued, your application fee minus \$5.00 will be refunded with an explanation.
 - If a COR is issued, you may then purchase fish from an approved source. Contact the Fish Health Program office for approved sources. Your COR is good for one year. UDAF will contact you before the COR lapses for renewal. COR holders may continue fee fishing and/or aquaculture operations during the renewal process. For renewal, an annual report is required. UDAF will provide appropriate forms. **Annual reports are due to UDAF by December 31 each year. A \$25 late fee is assessed after this date.**
- Aquaculture facility applicants:** After receiving your application and visiting your site, UDAF will send a copy and a letter to the Utah Division of Wildlife Resources (UDWR) for species approval and comment on site suitability. Under normal circumstances, the review by UDWR takes two working weeks (R58-17-8-A3). Adequate screens should be installed before a COR will be issued. To initially qualify to sell or move **live trout or cold water fish** from your facility, two negative fish health inspections, four months apart, are required. The fish need to be in the water 6 months prior to the first inspection. The same lot of fish is tested for both inspections. After successful completion of both inspections and issuance of fish health approval, live fish sales may begin. After initially qualifying to sell, one inspection is conducted thereafter annually. All inspections are at the operator's expense. Inspections differ for **warm and cool water fish**, for which only one negative inspection is required before sales are approved. **ANNUAL REPORTS** are to be completed *both* for live aquatic animals purchased or transferred *into* and for live and/or dead aquatic animals sold or transferred *from* your facility. **Receipts** from **each** in-state sale, shipment or transfer of live aquatic animals shall accompany the report. Either receipts from receipt book or a from supplied by UDAF may be used for out of state commerce.
- Fee fishing applicants:** Applicants are to supply a blank copy of their customer receipt form or an explanation for not using receipts. **ANNUAL REPORTS** are to be completed for live aquatic animals purchased or transferred *into* your facility. Movement of live aquatic animals from fee fishing facilities is unlawful. If UDAF determines that the applicant has no intention to conduct fee fishing, UDAF will notify the applicant and forward the information to UDWR for private pond licensure.
- Brokers:** Complete sections 1-3, 7, 12, 14 and 15.

NOTICES

- If earthen ponds are to be constructed, it is advisable that a soil profile be obtained and checked for clay content. This is important to determine if the pond will hold water. Contact the Natural Resources Conservation Service at 801-524-5051.
- Discharging water into local public waters near your fish farm is illegal, when fish or fish products are in the discharged water.
- It is the responsibility of the applicant to know and abide by local, state, and federal laws concerning water use, wetlands, habitat protection, wildlife protection, and aquaculture. EXAMPLES: Utah Division of Water Quality (contact if 20,000+ lbs. of fish to be reared) 801-538-6146; Utah Division of Water Rights 801-538-7240; US Army Corps of Engineers (for wetland issues) 801-295-8380.
- Changes to your plan before the final COR is issued need to be approved by UDAF.
- According to the Aquaculture and Fish Health Rule (R58-17), UDAF officials may inspect your records and facility during reasonable hours.

APPLICATION FOR CERTIFICATE OF REGISTRATION (COR)

1. Applicant Name and Address

2. Personal Information

Home Phone _____
Business Phone _____
Fax _____
Email _____

3. Type of COR (R58-17)

- Fee Fishing Pond Annual Fee \$ 30.00 Number of ponds _____
- Aquaculture Facility and/or Broker Annual Fee \$150.00 Distance separating ponds _____
- Aquaculture/Fee Fishing Combination Annual Fee \$150.00

NOTE: a separate application is required for ponds that are more than 1/2 mile apart.

4. Location of Pond or Facility Initial applicants only: Please include a site map (hand drawn or photo)

(The following information is available from the county recorder in the county where the facility is located.)

Township _____ County _____
Range _____ Local River Drainage _____
Section _____ UTM Coordinates (if known) _____

5. Site Description

a. Size of pond _____ Elevation _____ Depth _____	
Type of holding structure _____ Size of holding structure _____	
b. New construction? Yes <input type="checkbox"/> No <input type="checkbox"/>	Pond on natural stream channel? Yes <input type="checkbox"/> No <input type="checkbox"/>
c. Are fish present in pond site? Yes <input type="checkbox"/> No <input type="checkbox"/> If so, what species? _____	Are fish present in water source? Yes <input type="checkbox"/> No <input type="checkbox"/> If so, what species? _____
d. Are suitable screens present to prevent fish loss/entry? Inlet Yes <input type="checkbox"/> No <input type="checkbox"/> Outlet Yes <input type="checkbox"/> No <input type="checkbox"/>	
Water quantity _____ Water temperature Inlet ____ F Outlet ____ F	

6. Water Source

Artesian well Privately owned Open spring
 Pumped well Public surface Other (specify) _____
 Domestic Covered spring Chemicals used? Yes No
 Specify chemicals _____
 Indicate distance of zebra mussel, New Zealand mud snail, quagga mussel from your water source: _____

7. Brokers

Names/Addresses of Sellers _____
Names/Addresses of Buyers _____

8. Fee Fishing Receipts Fee Fishing applicants only Please attach a blank receipt form to be used for each sale.

9. Water Destination (where the water goes after leaving the facility)

Irrigation Public water Name of stream/lake _____
Subterranean Other (specify) _____
Settling pond used Yes No
