Qualifying Party (QP)

During the 2018 Legislative Session, a new law (see Utah Pesticide Control Act 4-14-111(3)(d)) was passed that requires a "Qualifying Party" to be associated with each Commercial Pesticide Business License. There are three ways to become a Qualifying Party:

1. Maintain a valid Utah Pesticide Applicator's License for two or more years
 2. Maintain a valid Pesticide Applicator's License from another state for two or more years that qualifies for a Utah reciprocal license
- OR
3. Provide a copy of a related Associate's Degree (or higher) and date graduated. Accepted degrees include horticulture, agriculture, entomology, biology, and chemistry. UDAF has the discretion in deciding what other fields of study may be acceptable.

Acknowledgment Forms

One or more of the Acknowledgment forms must be included with application/fees:

Part 1: [Owner with Separate Qualifying Party \(QP\) - Acknowledgment Form](#) **AND**

Part 2: [Qualifying Party \(QP\) - NOT the Owner - Acknowledgment Form](#)

[Owner Acting as Own Qualifying Party \(QP\) - Acknowledgment Form](#)

[Owner Claiming Exemption from Qualifying Party Requirement - Acknowledgment Form](#)

Other Business License Information

Fee: The Business License fee is \$110.00 per license. The license is triennial (once every three years), will expire on December 31st of the third year.

Each location that employs Commercial Pesticide Applicators is required to pay a Pesticide Business License fee for that location.

Commercial Pesticide Applicators who are not affiliated with a Commercial Pesticide Business are required to obtain and pay the fees for a Commercial Pesticide Business License AND a Commercial Pesticide Applicator License.

Please fill out your company information and include the appropriate acknowledgement form(s) and fees. Return the completed form to UDAF.

If you have any questions please contact us at 801-982-2300 (option #2) or UDAF-Pesticide@utah.gov.
