

## Non-Dairy Livestock Operation Biosecurity Plan Template

Ranch Information	
Ranch Name:	Premises ID:
Owner Name:	
Phone:	Email:
Address:	
City:	Zip:
Coordinates at front gate:	
Livestock are housed/grazed at additional locations (including grazing allotments). These locations are provided in a table attached to this document.	<input type="checkbox"/> Yes <input type="checkbox"/> No

Animals on Premises	
<input type="checkbox"/> Cattle	<input type="checkbox"/> Sheep
<input type="checkbox"/> Pigs	<input type="checkbox"/> Goats
<input type="checkbox"/> Bison	<input type="checkbox"/> Domestic cervids (elk, reindeer, fallow deer)

Commingling/Public Lands	
This operation grazes on public lands some part of the year.	<input type="checkbox"/> Yes <input type="checkbox"/> No
This operation grazes on common grazing allotments.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Livestock from this operation go to shows or exhibitions.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Livestock from this operation are leased/shared with other operations.	<input type="checkbox"/> Yes <input type="checkbox"/> No

### 1. Biosecurity Manager

The biosecurity manager communicates biosecurity measures to all individuals entering the premises and reviews and updates the biosecurity plan at least annually.

Name:	
Phone:	Email:

### 2. Training

All employees are trained at least annually on the enhanced biosecurity measures in this plan to keep foot and mouth disease (FMD) and other foreign animal diseases (FAD) out of the herd. This training is documented in a training log.

Location of training log:
---------------------------

**3. Protecting the Operation**

**a. Line of Separation**

The line of separation (LOS) and access points are drawn on the premises map.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Type of barrier marking the LOS access point:	
Description of sign at the LOS access point:	
All movements of animals, vehicles, equipment, and people across the LOS are recorded on an entry log:	<input type="checkbox"/> Yes <input type="checkbox"/> No Log location:
Deliveries are made outside of the LOS:	<input type="checkbox"/> Yes <input type="checkbox"/> No Delivery location:
People and items crossing through the LOS Access Points follow appropriate biosecurity steps.	<input type="checkbox"/> Yes <input type="checkbox"/> No
There is a designated parking area outside the LOS:	<input type="checkbox"/> Yes <input type="checkbox"/> No Location:

**b. Cleaning and Disinfection Station**

Location of the C&D station is marked on the premises map	<input type="checkbox"/> Yes <input type="checkbox"/> No
The C&D station is located on:	<input type="checkbox"/> Pavement <input type="checkbox"/> Gravel <input type="checkbox"/> Dirt
Plan for C&D of vehicles and equipment:	

**c. Distance From Neighboring Livestock**

Distance to nearest susceptible livestock:	
Plan to increase distance if needed:	

**d. Grazing Public Lands**

Months of the year livestock graze on public lands:	
Livestock are part of a grazing association.	<input type="checkbox"/> Yes <input type="checkbox"/> No
The biosecurity manager is aware of FAD exposure risks on public land and has reviewed the guidance found on the Secure Beef Supply Grazing Public Lands webpage.	<input type="checkbox"/> Yes <input type="checkbox"/> No

#### 4. Vehicles and Equipment

All vehicles and equipment not containing live animals are cleaned to remove visible contamination and disinfected prior to crossing the LOS.	<input type="checkbox"/> Yes <input type="checkbox"/> No
---	--

#### 5. Personnel

All individuals crossing the LOS that do not live on site must arrive with a vehicle interior free of animal manure, mud, or contamination from soiled clothing, footwear, or other items.	<input type="checkbox"/> Yes <input type="checkbox"/> No
All individuals crossing the LOS must be wearing clean clothing and footwear.	<input type="checkbox"/> Yes <input type="checkbox"/> No
All individuals crossing the LOS must have showered since last contacting susceptible animals.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Location of the Entry/Visitor Logbook:	
- Everyone crossing the LOS other than the owner or scheduled workers must complete the entry log.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Everyone crossing the LOS must agree to follow biosecure entry procedures including:	
- Wearing operation-dedicated footwear OR disposable or disinfectable footwear.	<input type="checkbox"/> Yes <input type="checkbox"/> No
- Washing hands and/or wearing disposable/disinfectable gloves	<input type="checkbox"/> Yes <input type="checkbox"/> No
- Putting on clean coveralls or coveralls that do not cross the LOS (if handling animals)	<input type="checkbox"/> Yes <input type="checkbox"/> No
Everyone crossing the LOS must agree to follow biosecure exit procedures including:	
- Remove protective outerwear, disposable footwear, and gloves	<input type="checkbox"/> Yes <input type="checkbox"/> No
- Wash or sanitize hands	<input type="checkbox"/> Yes <input type="checkbox"/> No
- Soiled clothing is	<input type="checkbox"/> Left on the operation to be laundered. <input type="checkbox"/> Placed in garbage bags until it is laundered or disinfected.
- Soiled footwear is:	<input type="checkbox"/> Left on the operation. <input type="checkbox"/> Cleaned and disinfected before exiting.

#### 6. Animal Movement

Incoming animals only come from sources with a biosecurity plan that have no current or previous evidence of FAD Infection.	<input type="checkbox"/> Yes <input type="checkbox"/> No
During a pre-movement isolation period, we will only accept animals from an operation within an FAD Control Area if they have not received any animals from another site for at least 7 days.	<input type="checkbox"/> Yes <input type="checkbox"/> No
If animal movement is stopped for several weeks, cull cattle will be humanely euthanized and properly disposed of on-site.	<input type="checkbox"/> Yes <input type="checkbox"/> No
If animal movement is stopped for several weeks, the operation can continue to provide feed and housing for all animals for (time):	

The livestock loading/unloading chute is located:	<input type="checkbox"/> Inside the LOS <input type="checkbox"/> At the perimeter of the LOS
Empty animal transport vehicles for outgoing loads are cleaned and disinfected prior to arrival at the operation.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Animal transport vehicles for incoming loads are cleaned and disinfected before animals are loaded for delivery.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Animal transport vehicles for incoming loads cross the LOS:	<input type="checkbox"/> Yes <input type="checkbox"/> No
The interior and exterior of livestock trailers are cleaned and disinfected before loading animals to leave the premises.	<input type="checkbox"/> Yes <input type="checkbox"/> No
- If no, the animals are only destined for a slaughter plant or only includes animals originating from the same herd (no commingling)	<input type="checkbox"/> Yes <input type="checkbox"/> No
- If no, the livestock loading area is cleaned and disinfected after every load.	<input type="checkbox"/> Yes <input type="checkbox"/> No

### 7. Animal Products

This operation uses semen or embryos from an off-site location.	<input type="checkbox"/> Yes <input type="checkbox"/> No
- If yes, the semen or embryos come from a site with no current evidence of FMD.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Livestock on the operation are fed dairy products	<input type="checkbox"/> Yes <input type="checkbox"/> No
- If yes, the dairy products have been treated to inactivate FMD.	<input type="checkbox"/> Yes <input type="checkbox"/> No

### 8. Carcass Disposal

Method for carcass disposal:	<input type="checkbox"/> Burial <input type="checkbox"/> On-site pile <input type="checkbox"/> Incineration <input type="checkbox"/> Composting <input type="checkbox"/> Rendering <input type="checkbox"/> Landfill
Carcass disposal methods prevent the attraction of wildlife, rodents and other scavengers.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Carcasses disposed of off-site are placed outside the LOS for pick-up.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Routes for carcass movement and disposal are labeled on the premises map.	<input type="checkbox"/> Yes <input type="checkbox"/> No

### 9. Manure Management

Manure is moved off-site	<input type="checkbox"/> Yes <input type="checkbox"/> No
- If yes, manure can be stored for (time):	
- If yes, manure handling equipment is shared with other operations.	<input type="checkbox"/> Yes <input type="checkbox"/> No
- If equipment is shared, it is cleaned and disinfected before crossing the LOS:	<input type="checkbox"/> Yes <input type="checkbox"/> No

**10. Rodent, Wildlife, and other Animal Control**

Rodent control method: (describe)	
Fly control method: (describe)	
Wild bird control method: (describe)	
We can prevent wildlife access to livestock on this operation:	<input type="checkbox"/> Yes <input type="checkbox"/> No
Dogs and cats roam between operations.	<input type="checkbox"/> Yes <input type="checkbox"/> No

**11. Feed and Water**

During an outbreak, feed trucks deliver feed:	<input type="checkbox"/> Inside the LOS <input type="checkbox"/> Outside the LOS
Feed spills are cleaned up as soon as possible to minimize attraction of wildlife and rodents.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Water source:	<input type="checkbox"/> Well <input type="checkbox"/> Municipal <input type="checkbox"/> Pond <input type="checkbox"/> Stream
- Wildlife have access to the water source	<input type="checkbox"/> Yes <input type="checkbox"/> No

**12. Premises Map**

The premises map includes:	
Public roads	<input type="checkbox"/> Yes <input type="checkbox"/> No
Line of Separation and access points	<input type="checkbox"/> Yes <input type="checkbox"/> No
Vehicle cleaning and disinfection station	<input type="checkbox"/> Yes <input type="checkbox"/> No
Designated parking area	<input type="checkbox"/> Yes <input type="checkbox"/> No
Animal loading/unloading areas	<input type="checkbox"/> Yes <input type="checkbox"/> No
Carcass disposal/pickup location	<input type="checkbox"/> Yes <input type="checkbox"/> No
Carcass removal pathways	<input type="checkbox"/> Yes <input type="checkbox"/> No
Non-essential delivery location	<input type="checkbox"/> Yes <input type="checkbox"/> No
